# WHO WE ARE

The Sentinel is a leading technology company specializing in software development, electronics, and electrical Engineering. We are committed to delivering innovative solutions that meet our clients' specific needs while adhering to industry standards.

In response to the increasing global demand for security and safety, we have developed the Sentinel Access Control System, a cutting-edge solution in partnership with HID. As HID's first-ever OEM partner in the Philippines, we are proud to offer state-of-the-art access control technology.

Our team of highly skilled professionals is dedicated to providing exceptional service. We excel in both software and hardware installation and integration, ensuring optimal performance and reliability. With our deep expertise in the field, we are a preferred system integrator for businesses across various industries.

## Mission

To be recognized as the leading systems integrator of security systems in the Philippines.

## Vision

Provide efficient solution that satisfy the client requirements in compliance to the engineering and global standards

## PROCUREMENT SERVICE

### CERTIFICATE OF PHILGEPS REGISTRATION (Platinum Membership)

THIS IS TO CERTIFY THAT

#### THE SENTINEL AUTOMATION AND SECURITY SOLUTIONS INC.

1089 Karen Ave Gen. T. De Leon ,  
Valenzuela City , Metro Manila , NCR , Philippines

is registered in the **Philippine Government Electronic Procurement System (PhilGEPS)** on 31-Mar-2023 pursuant to Section 8.5.2 of the Revised Implementing Rules and Regulations of Republic Act No. 9184, otherwise known as the Government Procurement Reform Act.

This further certifies that **THE SENTINEL AUTOMATION AND SECURITY SOLUTIONS INC.** has submitted the required eligibility documents in the PhilGEPS Supplier Registry as listed in Annex A, which document is attached hereto and made an integral part hereof.

For the purpose of updating this Certificate, all Class "A" eligibility documents covered by Section 8.5.2 of the Revised Implementing Rules and Regulations of Republic Act No. 9184 supporting the veracity, authenticity and validity of this Certificate shall remain current and updated. The failure by the prospective Bidder to update this Certificate with the current and updated Class "A" eligibility documents shall result in the automatic suspension of its validity until such time that all of the expired Class "A" eligibility documents has been updated.

By submitting this Certificate, the Bidder certifies:

1. the authenticity, genuineness, validity, and completeness of the copy of the original eligibility documents submitted;
2. the veracity of the statements and information contained therein;
3. that the Certificate is not a guaranty that the named registrant will be declared eligible without first being determined to be such for that particular bidding, nor is it an evidence that the Bidder has passed the post-qualification stage; and
4. that any finding of concealment, falsification, or misrepresentation of any of the eligibility documents submitted, or the contents thereof shall be a ground for disqualification from further participation in the bidding process, without prejudice to the imposition of appropriate administrative, civil and criminal penalty in accordance with the laws.

This Certificate is valid until 03-Dec-2025

Issued this 03rd day of December 2024.  
This is a system generated certificate. No signature is required.

Documentary Stamp Tax Paid PhP 30.00

# TECHNICAL STRUCTURE

## ENGINEERING AND DESIGN

Unleash your vision's potential! Our engineering design team blends creativity with technical expertise to transform ideas into functional, high-performing solutions. We use a systematic approach, iterating through prototypes until we bridge the gap.

## PROJECT MANAGEMENT

We orchestrate success! Our project management team thrives on keeping complex projects on track. We leverage industry-leading methodologies and cutting-edge tools to meticulously plan, execute, and monitor progress. We ensure a successful project delivery.

## SOFTWARE DEVELOPMENT / R&D

We turn ideas into reality. Our skilled engineers craft software solutions using the latest technologies. Our expertise spans the entire development lifecycle, from meticulously designing architecture to testing and deployment. This ensures our software is up to standard.

## POST PROJECT SERVICES

Our commitment extends beyond the finish line! We offer comprehensive post-project services to ensure your success in the long run. This includes user training and support, ongoing system maintenance and optimization, and readily available technical assistance.

# SYSTEMS & SERVICES

## Access Control System

A state of the art software platform for controlling and managing access process in buildings and building periphery. The system provides efficient access permission management for small and medium-sized companies based on simple locking plans and/or fixed access profiles.

## Building Management System

We design a futuristic technologically advanced AI and IoT solutions that enables building managers and occupants to connect and control the environment for comfort, energy savings, efficiency and safety.

## Video Surveillance

Avigilon Control Center (ACC) software is an easy-to-use video management software that is designed to optimize the way security professionals manage and interact with high-definition video. It efficiently captures and store HD video, while intelligently managing bandwidth and storage using our HDSM Technology.

## Intrusion Alarm System

Professional grade systems designed for home security or business applications. Intrusion alarms that are affordable and powerful with plenty of room for expansion.

## Automatic Sliding Door & Speedgates

Automatic sliding door operators and door systems create a welcoming and functional entryway to your business. From overhead concealed and glass entry doors, to weather and burglary resistant doors, our range of touchless solutions will make your facility entrances more convenient, attractive, and secure.

## Revolving Door

Automatic rotating doors are an ideal solution for energy efficiency, convenience and security. With everything from high capacity to security revolving doors, our designs offer smooth traffic flow regardless of your requirements. Whatever the entrance needs, you will be able to create your own individual statement.

# SYSTEMS & SERVICES

## Fire Detection & Alarm System

Achieve protection at every level with our state-of-the-art fire protection solutions. We have a complete line of detectors and other alarm components applicable to different businesses with different requirements

## Public Address & Controlled Evacuation

Fill the silence and create an atmosphere with our flexible system that support both simple and the most complex communication and background music needs.

## Pay Parking Automation

Contribute to the development of smart Cities through Smart Parking. Technologies in order to minimize time wasted by parkers to look for parking and to pay for parking.

## Home Automation System

Whole Home Lighting Control made Simple. It is a NEW, differentiated lighting and shading system providing smart home capabilities to the homeowner, while providing simple design, install, and setup for the service provider.

## Voice and Data

Voice and data is the backbone of modern communication systems, enabling the seamless exchange of information within an organization. This infrastructure typically includes a range of components designed to facilitate both voice and data transmission.

## Electronic Locks

Electronic locks provide enhanced, automated security by integrating physical locking mechanisms with digital credentials. They are crucial components in modern access control systems.

hidglob

HID GLOBAL, is the manufacturer of HID brand of readers, cards, controller and other access control products and peripherals.

We certify that The Sentinel Automation and Security Solutions Inc. with office address at 25 Upper Tamaraw Hills, Marulas, Valenzuela City Philippines is our official OEM partner for HID Aero Network Access Controller supporting the Sentinel Access Control System Software.

The Sentinel Automation and Security Solutions Inc. is capable to sell and market HID Physical Access Control System products.

As such we would extend our full support and warranty to them of HID Physical Access Control System products as stated in our sales policy.

Should you have any queries, please do not hesitate to contact us.

Very truly yours,

For and On Behalf of HID Global

IAN MARCOS

HID Regional Sales Manager

ATTENTION: To Whom It May Concern

SUBJECT : MANUFACTURER'S CERTIFICATE

To whom it may concern,

We, **HANWHA TECHWIN CO., LTD**, who is the official manufacturer of Hanwha Techwin's CCTV - Wisenet (Formerly Samsung Techwin) and its related surveillance equipment having our office address at **Hanwha Techwin R&D Center, 310-6, Pangyo-ro, Bundang-gu, Seongnam-si, Gyeonggi-do 134-100, Korea** do hereby certify that

**The Sentinel Automation and Security Solutions Inc**, with office address at **1083 Karen Avenue, Bagy Cen, Taguig City, Metro Manila Philippines**, is one of our Authorized Partner to sell and render after-sales support for above mentioned products in the Philippines.

Furthermore, Hanwha Techwin will support **The Sentinel Automation and Security Solutions Inc** for all Sales and after sales services in regards with Projects within the Philippine Region.

Truly yours,

# OUR VALUED CLIENTS

# Project References

## NEX Tower

Revolving Door is designed to meet aesthetic and functionality. It allows smooth flow of traffic all the while giving satisfaction to tenants and visitors.

## GCP Applied Technologies Secured Facilities

Laboratory Rooms, Production Area, Warehouse and Admin Bldg. of this remote manufacturing site of a Global Company is installed with Access Control to be monitored by its Main Branch.

### **BDO Equitable Tower**

A complete set of Walk Through Metal Detector. Baggage Scanner and Handheld Metal Detector provides security screening of people and their bags in search for dangerous objects and enhanced manned security efficiency.

### **Henkel Asia Pacific Service Centre**

Being the Main Office of its company. It is designed to secure facilities and blocks unauthorized personnel. Intercoms are installed every floor to communicate with the visitors. Door Contracts are also installed for Fire Exit Doors for monitoring combined with Strobelight and Siren.

**Mimosa Workplus 4**

**Mimosa Workplus 1**

**Mimosa Workplus 2**

**Mimosa Workplus 7**

Turnstile Access Control will greet you at the Main lobby to monitor persons entering the building. It is integrated with Lift wherein as you tap your access card, the LCD Display on top of the turnstile will show your designated Elevator Car for time efficiency. Parking levels also has its own turnstile to prevent car owners and their passengers from freely entering the building premises. Deliveries from parking level will have to be authorized through intercom. This Turnstile Access Control is integrated with the FDAS in Accordance to NFPA Code 72 Visitor Management System is installed to cater guests and for proper monitoring of their information and business.

## PUMA

Card + PIN reader is installed for dual verification and equipped with override switch that automatically releases normally closed state doors for maintenance and emergency purposes. Door scheduling between holidays and operating hours is also in place. While the Main Door is locked, the Left and Right Doors from the Reception are open and this program shifts as the date/time varies.

## Orion Tower Cebu

Revolving Door is designed to meet aesthetic and functionality. It allows smooth flow or traffic all the while gives satisfaction to tenants and visitors.

### **387 Gil Puyat Tower**

Turnstile Access Control will greet you at the Main lobby to monitor persons entering the building. It is integrated with Lift wherein as you tap your access card, the LCD Display on top of the turnstile will show your designated Elevator Car for time efficiency. Parking levels also has its own turnstile to prevent car owners and their passengers from freely entering the building premises. Deliveries from parking level will have to be authorized through intercom. This Turnstile Access Control is integrated with the FDAS in Accordance to NFPA Code 72 Visitor Management System is installed to cater guests and for proper monitoring of their information and business.

## **One Filinvest**

Turnstile Access Control will greet you at the Main lobby to monitor persons entering the building. It is integrated with Lift wherein as you tap your access card, the LCD Display on top of the turnstile will show your designated Elevator Car for time efficiency. Parking levels also has its own turnstile to prevent car owners and their passengers from freely entering the building premises. Deliveries from parking level will have to be authorized through intercom. This Turnstile Access Control is integrated with the FDAS in Accordance to NFPA Code 72 Visitor Management System is installed to cater guests and for proper monitoring of their information and business.

## Filinvest Cebu Cyberzone Towers 1 & 2

Turnstile Access Control will greet you at the Main lobby to monitor persons entering the building. It is integrated with Lift wherein as you tap your access card, the LCD Display on top of the turnstile will show your designated Elevator Car for time efficiency. Parking levels also has its own turnstile to prevent car owners and their passengers from freely entering the building premises. Deliveries from parking level will have to be authorized through intercom. This Turnstile Access Control is integrated with the FDAS in Accordance to NFPA Code 72 Visitor Management System is installed to cater guests and for proper monitoring of their information and business.

## Filinvest Axis Towers 1, 2, 3, & 4

Turnstile Access Control will greet you at the Main lobby to monitor persons entering the building. It is integrated with Lift wherein as you tap your access card, the LCD Display on top of the turnstile will show your designated Elevator Car for time efficiency. Parking levels also has its own turnstile to prevent car owners and their passengers from freely entering the building premises. Deliveries from parking level will have to be authorized through intercom. This Turnstile Access Control is integrated with the FDAS in Accordance to NFPA Code 72 Visitor Management System is installed to cater guests and for proper monitoring of their information and business.

## Studio 7

Turnstile Access Control will greet you at the Main lobby to monitor persons entering the building. It is integrated with Lift wherein as you tap your access card, the LCD Display on top of the turnstile will show your designated Elevator Car for time efficiency. Parking levels also has its own turnstile to prevent car owners and their passengers from freely entering the building premises. Deliveries from parking level will have to be authorized through intercom. This Turnstile Access Control is integrated with the FDAS in Accordance to NFPA Code 72 Visitor Management System is installed to cater guests and for proper monitoring of their information and business.

## PLDT SMART

- DAU
- DAGUPAN
- SAN FERNANDO
- CABANATUAN
- BAUAN

Building management systems are essential for large-sized facilities like data centers, hotels, schools and colleges, hospitals, offices, commercial establishments, etc. Let's say you are the manager of a large building with several rooms. Every room is fitted with numerous lights and fans. They each have an entertainment system, air conditioners, heaters and other devices that run on electricity. As the building manager, it is your responsibility to reduce energy wastage, reduce unnecessary maintenance costs, and add to the longevity of the devices and the building.

## National Grid Corporation – Electric Top Guard at Various Sub Stations

Perimeter security solution is monitored pulse fence installed on top of wall edges of the site to keep security of equipment and facilities from outsider. It serves as a deterrence, detection, and prevention of intruders. The energized wires that made up the fence has a tension sensor that alerts you immediately when touched. These are high-tensile wires that can be constructed to a new fence/wall or integrated with the existing ones. Regular pulses are being sent to the energized wires and delivers a short shock yet safe to anyone who tries to touch it thus making it impossible for intrusion. The system is designed to comply with the international safety and electromagnetic compatibility standards.

### **Skyrise 3B**

Elevator access is integrated with access control such that floor restrictions are being exercised. For efficiency, tapping cards on the touchpad readers located on the ground floor elevator lobby will designate you your assigned car depending on your floor access levels.

### **Filinvest Cyberzone Bay City**

Design and Build of various auxiliary systems such as FDAS, PABGM, ACS, and structures cabling system designed to meet the security and safety of the end-user and their assets are installed within the building for the National Bureau of Investigation.

# Mt Camisong Park and Events Place

## Integrated Systems:

Point of Sales (POS) System

Parking Barriers

Autopay System

## Features:

Customizable

Real-Time Monitoring

# Mt Camisong Park and Events Place

## ENTRANCE TERMINAL

The entrance terminal is the first interaction point for vehicles in a parking facility, enabling efficient entry and data collection within the parking automation system.

## EXIT TERMINAL

The exit terminal is the final point of interaction for vehicles leaving a parking facility. It is designed to validate parking tickets or RFID cards, calculate parking fees, process payments, and control the exit gate.

## AUTOMATIC LICENSE PLATE RECOGNITION

The Automatic License Plate Recognition (ALPR) system enables perimeter protection, road traffic and vehicle detection, and parking management. It automatically captures and identifies license plates and drivers without human intervention, enhancing security and operational efficiency.

## AUTO PAY SYSTEM

Our innovative autopay system enhances parking efficiency and revenue by accepting cash and popular e-wallets. It streamlines transactions, recycles payments for change, and maximizes resource utilization.
